THERMAL JOURNEY

The many healing benefits of water and heat therapies have been practiced for centuries to reduce muscle tension, relieve pain and stress, boost the immune system and encourage detoxification. Fast forward to today's Six Senses hydrotherapy experiences, which provide an alternative yet therapeutic way to ease muscle aches and boost overall well-being, using the physical properties of water in several different forms. What's more, the muscles will be relaxed and the mind calmer, creating optimum conditions for achieving the best results.

Heated Loungers

A great start to the hydrotherapy circuit. Lie back on contoured tiled lounge chairs, radiantly heated at 35 degrees Celsius (96 Fahrenheit), allowing the heat to penetrate deep into the body to relax, reinvigorate and soothe muscles.

Crystal Steam Room

This aromatic steam room features a pure rock quartz crystal known as 'a master healer' to amplify energy, improve concentration and focus, and balance and revitalize the body, mind and soul. Choose your desired steam temperature at two bench levels.

For pregnant guests, we kindly ask that you consult with your doctor before visiting facilities

Finnish Sauna

The high temperatures in this classic dry-heat sauna help release endorphins, the body's natural painkillers for relieving muscle soreness and pain. Sweating also opens the skin's pores to flush the body's impurities in a natural way.

Experiential Rains

Recommended to use after the sauna or steam, cooling showers stimulate circulation and aid better oxygenation of the body, wash away the toxins and clarify the mind. Light and sound effects enhance the experience.

Hydrotherapy Pool

Enjoy hydromassage stations designed for relaxation, rebalancing and releasing tension throughout the body.

Igloo

Ideal to use after the sauna, steam or the hydrotherapy pool session, icy circulating air cools the skin, and is most beneficial when inhaled deeply into the lungs, then exhaled slowly. Grab a handful of ice, rub it over the body to stimulate circulation and oxygen uptake, boost the immune system and gently exfoliate the skin to eliminate toxins. An Arctic mist spray and heated floor enhance your chilled-out experience.

For pregnant guests, we kindly ask that you consult with your doctor before visiting facilities

Cold Plunge

Step into icy water to invigorate the body and awaken the senses. Alternating between warm and cold therapies enhances circulation, boosts the immune system, and reduces muscle tension. This refreshing plunge stimulates energy, supports recovery, and leaves you feeling revitalized and renewed.

Foot Therapy Basins

Boost circulation and recharge the body as you soak tired feet, alternating hot and cold water, while seated on a heated bench. The bubbles massage the feet and ankles, stimulating pressure points as in a reflexology session.

Salt Grotto

Lie back on heated benches made of thick Himalayan natural rock salt as soothing "sea air" washes over you. Salt therapy relieves respiratory ailments and its calming and detoxifying effects also support the immune, nervous and lymphatic systems. Other benefits include less stress, more energy and improved sleep quality.
